WORK EXPERIENCE

Technical Support Technician – EURAFRIC, Casablanca, Morocco

From October 2023 to June 2024

- Received and resolved issues reported by key users.
- Managed requests based on their business impact and ensured follow-up on each ticket.
- Monitored incident handling until resolution; escalated complex incidents to other departments.
- Installed, integrated, and updated new equipment onsite or via remote support.
- Drafted technical procedures to provide solutions and recommendations based on the type of incident reported.
- Maintained the platform and utilized the incident database: follow-ups, consolidations, trend analysis.
- Conducted systematic analysis of incidents for continuous improvement.

IT Maintenance Technician – POL IT, Casablanca, Morocco

From February 2023 to October 2023

- Equipment Installation:
 - Set up new computers, printers, and other devices.
 - Installed new software.
- Maintenance Tasks:
 - Proactively secured the IT infrastructure to prevent failures.
 - Repaired hardware and software issues.
 - Ensured software updates were applied.
- Training:
 - Trained users in utilizing IT equipment and software.
 - Educated users about virus prevention and system security.

B2B Supervision and Editique Services – CBI, Casablanca, Morocco

From August 2022 to February 2023

- Diagnosed and resolved IT issues remotely (hardware/software).
- Identified resources needed to resolve issues effectively.
- Analyzed complex information and monitored performance indicators.
- Configured and installed equipment; performed first-level IT maintenance.
- Installed and configured printers, scanners, and other peripherals.
- Deployed machines using Acronis and managed physical replacement of printer components.
